

## DOCTORAL COLLEGE - UNIVERSITY OF STRASBOURG

---

### Implementation of the Individual Training Convention for the year 2021/2022

---

Validated by the Council of the Doctoral College - University of Strasbourg on 17 May 2017

Within the framework of the application of the decree of 25 May 2016 laying down the national training framework and the procedures leading to the award of the national doctoral diploma, and in particular Article 12 thereof, the Doctoral College - University of Strasbourg is implementing an individual training convention for all doctoral students.

This **individual** convention aims to define and schedule the entire doctoral path (research project and individual training plan) of the young researcher and to identify their professional project. It commits the doctoral student, their thesis supervisor, the director of the research unit and the director of the doctoral college. It can be revised at each re-registration and must be revised for a registration by derogation.

A "pre-filled" convention, based on the administrative information communicated by the doctoral student and the thesis supervisor, will be sent to each doctoral student by e-mail, with a copy to the director. It should be completed at a meeting between the doctoral student and their thesis supervisor.

#### ***You are a doctoral student registered in 1<sup>st</sup> year for the year 2021/2022:***

A personalised convention will be sent to you, at the end of your administrative registration and at the latest two months after your registration. It will be up to you to complete it and to have it signed by the persons involved before sending it back to your doctoral school.
